**NEW WEED SEWING MACHINE**  
 THE LAST AND BEST.

The New Weed Sewing Machine Company have now at last completed their Three Standard Styles of

**Weed Sewing Machines.**  
 First—Their New "Family Favorite." Second—Their New, Light and Noiseless Manufacturers' Sewing Machine. Third—Their immense heavy Manufacturers' Favorite. The three together combining the advantages of all others up to the present time, being the BEST made and doing the best work—has received throughout Europe, the States, and upon this Coast, the

**First and Highest Premium**  
 at each and every public Fair since 1867 (the year it was completed), where any premium at all has been given or where its strong points have been really exhibited.

There is a difference!—All the premiums that the WEED Sewing Machine Company claim, from the

**First and Highest Premium at the Great World's Fair at Paris, 1867**  
 up to the present time, (see small circulars) are each and every one GENUINE Awards, or will forfeit \$500 for each and every false claim! Other Sewing Machines have had their Premiums but how many of them in the last two years?

There is a difference! says the "True Chronicle." "This magnificent Sewing Machine comes forward in good time, and strikes exactly the right mark." Also, the editor of the "Independent" says, "Such a Sewing Machine as the WEED—the New F. E.—we have never seen." Thus the New WEED Sewing Machine is the

**SIMPLEST AND STRONGEST,**  
 the last, and as we believe in modern improvement we may add the BEST Sewing Machine made as yet. It is the best Family Sewing Machine; it is the best Boot, Tailor's, Saddler's Sewing Machine; it is the most successful Sewing Machine! For already its name is a household word in both Europe and America, and is rapidly taking the place of all others. Its immense central Manufactory is in Hartford, Connecticut, and Agents in all the Principal Cities in the World.

## "TOO DEEP FOR THAT."

"Yes" said Farmer Brown, Bringing his hand flat down On the old oak table; "They say that men can talk, From Paris to New York, Through the sunken cable."

"It's perfectly absurd, For to hear a single word, No man is able; And it's clear enough to me That this widespread mystery Is a foolish fable."

"The news we get from Rome Is all made up at home, 'Tis my conviction; And that, you see, will account For the terrible amount Of contradiction."

"Yes" said Farmer Brown, Bringing his hand flat down On the old oak table; "My wife and I have tried The experiment; we tied A good stout bit of cable."

"To the fence just over there, And the rocker of this chair; And we couldn't do it, Though we screamed ourselves as hoarse As three toads; but of course Not one word went through it."

"Don't talk to me, I pray, Of fresh news every day Through sunken cables; Sea yarns are always tough, And I have heard enough Of such old fables!"

## My Experience as a Texas Editor.

I purchased the Killburg *Pistol* for \$1,000 including office, stove and books. The retiring editor threw in thirty broken swords, eight bowie knives, and three bushels of maimed revolvers. His reason for retiring from business was, that he had two hundred and eighty accepted challenges on his hands, which demanded his undivided attention.

The Killburg *Pistol* boasted of a circulation of eight hundred. Its advertising patronage was good. It had a sporting page, mainly taken up with notices of coming duels, in which the editor's name figured quite conspicuously. Its motto was the following appropriate and characteristic utterance of certain Seminole Indian:

"I ne'er will ask for quarters,  
 I ne'er will be a slave;  
 I'll swim the sea of slaughter  
 Till I sink beneath the wave!"

The verse was flanked on either side by bowie knives and revolvers.

In his valedictory the retiring editor spoke of myself as follows:

"Our successor is a gritty fellow. He will retract nothing, and will give satisfaction to its demeanor, only at the pistol's mouth and the bowie's point."

I sent the three bushels of revolvers to the gunsmith's for repairs, and the bowie knives to the grindstone.

Then I wrote my first editorials. I found an original poem in the desk beneath ten pounds of cartridges, which I sent up to the devil. It was from the pen of Maud Esther Abigail Buttons, the Killburg poetess. I clipped a good deal from my exchanges, giving credit now and then. I made a slight change in my paper. I extracted the column head "Comancheisms" and substituted healthy extracts from the *Independent*, *Church Union*, etc., with the caption, "Religious food."

Well, at last the first number of the *Pistol*, under the new management, came out and I was greatly pleased with its appearance.

The day following the issue of the paper found me seated at my desk preparing copy. Suddenly steps on the stairs assailed my ears, and a moment later a young woman burst into my sanctum. She was tall, boasted of red hair and freckles and the combined strength of a yoke of oxen. Her face was flushed, and I saw that a storm was about to burst over my unprotected head. Unprotected, I say, for my hat lay on the floor, my wig lay on it and the gunsmith had not repaired the three bushels of revolvers.

"Good morning," I said to the visitor, politely pushing her a chair.

She did not reply to my salutation, nor accept the proffered seat but moved nearer to me, and I caught sight of a cowlid which she tried to conceal behind her.

"Are you the editor of the *Pistol*?" she suddenly broke forth, her hand itching to lay the cowlid on my person.

"I am, Miss," I answered as calmly as I could. "Can I be of any service to you this morning?"

"Sir, I am Miss Maud Esther Abigail Buttons, the Killburg poetess, and for years the *Pistol*'s favorite contributor."

"Ah, Miss Button," I answered trying to smile, with my eyes fixed upon the cowlid, "I feel greatly honored by your presence."

She did not notice my remarks.

"Do you ever read proofs?" she cried.

"I do."

"Did you read the proofs of my poem, 'Manfred,' in this week's paper?"

"I did; but I may have overlooked some slight typographical errors." I guessed what she was coming to.

## "And a pretty proof reader you are!"

she yelled, drawing a copy of the paper from her bosom. "You good for nothing scamp, you have ruined my poetical reputation! Oh, you unscrupulous blackguard! you scum of the earth!" and the whip was raised menacingly over my head.

Calm yourself, Maud Esther Abigail Buttons, I said, hoping that the acknowledgment of her entire name would have some effect upon her. "Let me see the cause of the trouble," and I stretched forth my hand for the paper.

But she stepped back.

"The first ruin I will read myself," she cried; "but the second perversion of beautiful thought is not fit for a lady to read. Rascal, you have ruined me for life—for eternity! The manuscript of the fourth verse of my 'Manfred' reads thus:"

"Good spirit, heed my plaintive cry,  
 Reserve those days of pain,  
 And let me tread my native hall  
 With nimble foot again."

"There's true poetic sentiment," she cried. "But listen how it reads in print:"

"Good spirit, heed my plaintive cry,  
 Reserve those days of pain,  
 And let me tread my native hall  
 With nimble foot again!"

I was staggered. In all my thirty years of editorial life, such a batch of typographical errors had not crept into my paper.

I really pitied Miss Buttons.

"I am truly sorry for you," I said. "I will explain in the next week's paper and set the matter right."

"Explanations will not restore my reputation," she shrieked, and again the cowlid hovered over my hairless cranium.

"I might forgive you for the mistakes I have read, but for the perversion of the first line in the seventh, I must have satisfaction. My manuscript reads thus:"

"I see my Manfred's ship in flames."

"Oh, how you perverted it, you villain, scamp, base perverter of sweet thoughts! Read the perversion yourself; it makes me blush to think of it. Oh! oh! oh! I am mad!"

I seized the paper and read the typo's rendition of the above line:

"I see my man's red shirt in flames!"

My God! I sprang to my feet, intending to run up stairs and pitch the ignorant type out of the window, but Miss Buttons caught my arm and forced me down into the editorial chair.

Then the cowlid descended with herculean force, and I shrieked under the blow. I believed the whip had laid my skull bare, and that the next blow would scatter my brains, to irrecoverable crannies of the sanctum. But the second blow fell upon my back.

"You villain!" she shrieked, holding me down with one hand, and dealing blows with the other in dizzy succession; "I'll teach you (crack) how to (crack) ruin a lady's reputation (crack, crack, crack). Oh, you miserable (crack) dog! you'll never want to (crack) ruin another reputation (crack) when I have done with you (crack)."

At last she sank back perfectly exhausted, and so did I. For ten minutes we glared at each other like Kilkenny cats, and when she recovered, she moved towards the door.

"I ain't through with you yet," she hissed. "If I can't make you pay for your dirty work before a court of law, I'll come back and beat you into printer's ink."

She darted from my sanctum, and I thanked my stars that she was gone. I was the sorest man in Texas, which State I resolved to leave forthwith. I was examining my funds, when the door opened and a stalwart Texan, carrying a lariat and a terrible looking whip, paused before me.

I gave myself up for lost, and sank back with a groan.

"Are you the editor of this ere paper?" he cried.

"No!" I yelled.

"Where is the editor?"

"He went to Austin this morning. Did you want to see him?"

"Well, I rather think I do. I keep him posted about the Comanches, and he has took my news out of the paper, and stuck in a lot o' durned trashy matter from New York. Who wants to read such stuff down hyer in Texas? The cussed Comanches trouble us more than the devil. Now look hyer, I am hyer to whip the houn to death, and hang him with this 'ere lariat. By thunder I mean just what I say! I will call again."

I did not ask him to remain longer, but permitted him to depart in peace.

I congratulated myself over my narrow escape, and rose to my feet. I would go

## to the gunsmith's, get some of my revolvers, and fill with lead the next person who entered my sanctum. If they would Give me six hours time I would be out of the State.

I had not reached the door when I found myself confronted by a six-footer, in whose belt four Arkansas toothpicks were displayed.

"You the editor?" he asked, eyeing me savagely.

"No!"

"Then I'll leave."

"Did you want to see the editor?"

"Yes; I owe him about \$18 which I want to pay."

I had missed it. That sum would take me from the State, and the perils of a Texas editor.

"Yes," I said, reflecting, "I am the editor."

"Why didn't you say so?"

"I thought you intended to do me bodily harm. I have been so much annoyed here of late that it is best to be cautious."

"Look here, old hoss, that won't do me; that's too thin. You're some loafer what wants to make a raise. No, sir-ee! I pay my money to the editor, himself. Good day, boss."

"He walked out and I followed him."

"I am the editor, I swear it!" I cried clutching his arm. "I'll let you off for \$15, I want money enough the leave this infernal State."

"If you don't sneak back into that office, I'll tickle your ribs!" he said, drawing one of the bowie knives. "Git!"

I got.

A moment later the devil arrived from the Postoffice and threw three letters upon the desk.

"I opened them with great expectations. I had lately mailed duns to delinquents, and I thought that the letters contained money."

The first read:

MR. EDITOR—Sir: I paid my account four weeks ago. I can't overlook your brass to dun me again. By George! I won't stand it. I'll be in Killburg one day this week, and I'll beat you flat. I am the roarin' alligator of Comanche creek, so, if you are married, make a will and will your wife all I leave of you.

J. BEERS.

The second was no better:

SIR:—You have grossly insulted me by dunning me for an account I have twice paid. I must have satisfaction at the pistol's mouth. I will meet you on Simpson's Hill to-night at 8 o'clock. If you refuse to meet me, I will seek your sanctum, compel you to write your own obituary, and blow your brains out. There's no going back on the above.

J. I. SLAYER,  
 Mem. of the Texas Legislature.

The third was brief, but to the point:

MR. EDITOR:—Nothing but your blood will wipe out the insult you have offered me by dunning me for a thrice-paid debt. I will have it. Prepare to die.

A. K. ILLER.

Five minutes later, my sanctum was tenanted. I flew to the depot. The funds I had took me to Duellville, where I borrowed \$10 from the editor of the *Bowieknife*, which sum whirled me from the State.

Within the past two weeks I have received three hundred replies to my duns. The writers without a single exception, threaten my life.

But I'm safe, where Texans cease from troubling; and where the editor is at rest. I wouldn't put foot in Killburg, unless I had the national army to back me, for the national debt.

I want to dispose of my establishment in the above named place. I will sell out on reasonable terms. I will charge nothing for my predecessor's books, his knives and revolvers. It is a good opening for a moral young man. For the benefit of inquirers I will state that there is an undertaker in Killburg, and that the cemetery is but five minutes' walk from the *Pistol* office.

Parties wishing to purchase will, after bidding their friends an affectionate farewell, and singing:

At a school in Green county, Iowa, the scholars caught a skunk and put it in the schoolmarm's desk, thinking she would smell a marm and give them a holiday. She wasn't one of that kind. She took a spring clothes pin, fastened it on her nose, and went on with the exercises, and let the scholars enjoy the perfume.

## HIGH TAXES AND RUINED TRADE.—The

returns show a great increase in the number of failures and the liabilities of bankrupts in 1870 over 1869. But the fall of rents, and the increasing number of shops and tenements to let in all our cities and large towns, declare even more visibly than these statistics, the increasing decline and ruin of business, says the New York Sun, Radical.

Is this a time to keep up high taxes in order to pay off the funded public debt? Trade is destroyed because of the various forms of taxation which oppress it. Income, license, stamp, and other taxes break it down by their burdens. Yet the stupid folly is advocated of keeping up these imposts for the wasteful and useless object of paying a public debt not due for ten years to come.

This is no better policy than it would be for a Bedouin Arab to insist on having his dinner by cutting off a steak from the hind-quarters of his horse.

The business of the country totters and falls under the weight of its load. Yet the cry of the Treasury is, "Let it bear its burdens till death comes to relieve it."

This is not only a heartless, but a ruinous policy.

It is not traffic alone that suffers. Internal taxes of every kind enhance the cost of living while they exert no influence whatever either directly or indirectly in increasing the wages of labor. Thus their imposition for unnecessary objects is no better than sheer robbery of the industrious laboring classes.

The vital function of a wise administration is to conceive policies and frame measures that will add to the rewards of labor and stimulate enterprise. Government is the richer and stronger in proportion as it advances the interests of the productive classes.

Every enhancement of cost goes to restrain production and abridge trade. The natural effect of our depreciated currency has operated most injuriously upon industry, but it has had a degree of compensation in the fact that labor itself has profited by it. But increase of price of commodities arising from the exactions of Government has no compensation. These exactions are simply so much dead weight, crushing the very foundations of society, and drying up the very sources of revenue.

These are the simplest of truths, and yet they are wholly ignored by the Administration at Washington.

## FAST YOUNG MEN.—The Rev. Henry

Morgan, a talented gentleman, recently lectured on the above subject. He presents two classes of fast young men, those who reform, and those who resist every effort made for their reformation. While paying tribute to their friends, Mr. Morgan deplores the vice of such men as Coleridge, the poet, who was a slave to rum; Burns, no less a drunkard, who was in a maudlin state when he composed his immortal lines over 'Highland Mary's Grave'; Douglas Jerrold, the great wit, who was a devotee of gin; Lord Byron, the sun of whose life was gin, women and licentious poetry; De Quincey, whose imagination ran riot from the excessive use of opium; Steele, the brilliant author of the 'Christian Hero,' who was a beastly drunkard; Charles Lamb, who was a votary of the cup; and lastly, Edgar A. Poe, whose melancholy death from strong drink a wholesome moral is drawn. Mr. Morgan's description of Poe, as he appeared before the Boston Lyceum, twenty-five years ago, while bordering on frenzy by recent potations, makes a forcible impression on the audience. Fast young men were not beyond the pale of salvation. Bunyan, Robert Clive, Benjamin Abbott, John Summerfield, Richard Weaver, John B. Gough and others, are mentioned as among those who have been reclaimed.

## NEW WAY.—Judge Lavin, of Corinne,

Utah, offers a new way to solve the problem of Mormonism. It is, to start a grand gift lottery for some library, and put in all the extra wives of polygamy as prizes.

**THE WORK BEFORE US.**—The real purpose and true mission of the Democracy can be defined with great brevity, says the *San Francisco Examiner*: It is to undo all that Mongrelism has done, and bury the relics of the hideous thing so deep that the eye of man shall never again rest upon any portion of the disgusting remains. Simply to inflict wounds upon the monster, though some may be near the vital parts, will not accomplish our just intent. A death-blow must be struck. In the language of an exchange "it will not suffice to lop off the branches of the poisonous tree that overshadows the rights of the States and the liberties of the people. It must be torn up by the roots—not a fibre must be left in American soil. It is true that this cannot be accomplished at a single stroke. But it is the end we must keep constantly in view—the end for which we must constantly strive. We may have to avail ourselves of the aid of many not of the faith, to accomplish in detail the destruction of the odious measures that now curse the country, but we must lower the standard of Democratic principle to secure this aid. We can co-operate with free-trade Radicals and revenue-reform Radicals in securing the ends desired by each, without abandoning our distinctive principles to propitiate their good will. We must press straight forward to the accomplishment of our mission; when our path and that of disaffected Radicals coincide, we will go with them hand in hand; when those paths diverge, we will not require them to go with us, nor will we turn aside with them."

## ADJOINING COUNTIES.

The following items are taken from the *Visalia Delta* of February 28d:

The amount of lands in Tulare county that are open to purchasers aggregate millions of acres. Of these that lie in the valley and are first or second rate we may mention the following: Four hundred thousand acres of Government, double bottom, two hundred thousand acres private lands near Tulare lake. Zumwalt agent, price \$2.50 per acre and terms easy, and five thousand acres adjoining Visalia, price ten to twenty dollars. A. J. Atwell agent; and fifty thousand acres swamp and overflowed land along Tulare lake, to be had for improving. To these may be added eight hundred thousand acres of Railroad land, mostly first quality, soon to come into market and valued by the agent at from one to five dollars per acre. We may also add five or ten thousand acres of improved lands that are now offered for sale by those that have more lands than they can well cultivate.

The semi-annual apportionment of State school moneys has been received. The amount per scholar is \$2.50, of which our county receives \$3,255.00. This news will be cheering to the teachers of public schools, and to all who are interested in schools. We will give the county apportionment as soon as it is made by the Superintendent.—*Tulare Times*.

We have had, since our last issue, one of the most glorious rains that has fallen since our last flood. It began on Monday and continued, with slight interval, until Wednesday evening. During this month 1.56 inches of rain has fallen, and the total for the season, thus far, is 4.29 inches. With a few fair spring rains the crops in this valley will be insured beyond controversy. Our last rains seem to have been general throughout the county and we are hearing the most cheerful reports from the different sections.—*Tulare Times*, Feb. 25th.

**OF DOUBTFUL PROPRIETY.**—A correspondent in writing from Washington, in speaking of the bill which provides for the sale of timber land, which has passed the House of Representatives, says:

"Since the bill went through, large petitions have come on from California, praying for the passage of such a bill. They have been turned over to Senator Casserly to present in the Senate. Mr. Sargent has also made an argument in favor of the bill before the Committee of Public Lands in the Senate."

The bill provides that unsurveyed timber lands may be taken up in advance of any survey by the Government. This bill seems to be like most of the other bills before Congress during the past few years—in the interest of speculators. It provides that no one person shall locate more than 640 acres, but that difficulty is as easily surmounted by the money sharks as are the restrictions of the pre-emption law; there are plenty of men who would locate and sell to the land grabbers, even if they had to perjure themselves to do it. It is done every day, nearly, in this valley. Men locate land in their own names, and for their own uses and benefits, and turn around and sell them to the land sharks. The same result must follow the passage of this timber land bill. In a few years after its passage every available acre of timber land in the State will be owned and controlled by the land grabbers.

## DEATH THROES.

Ben Butler has commenced laying the wires for controlling the next Presidential election. Ku-Klux outrages are receiving his attention. He wants Commissioners appointed to examine into the matter, and report the depredations of the low, vulgar white outlaws, on the moral and aristocratic, but inoffensive and helpless gentlemen of color. He wants to have the testimony of the actions of the late rebellious States perpetuated, and he and Grant and others of that ilk are anxious to find a pretext for again invading those States and swaying the elections in 1871, to suit their desires. Grant has fixed his mind upon again occupying the Presidential Chair, and his grand army of cousins and brothers-in-law, political hucksters and thieves, imbecile appointees and carpet-baggers, demagogues and negroes, and other descriptions of nondescript that he has drawn about him, are striving with all their might to aid him in accomplishing his design. Ben Butler and Morton of Indiana, who in reality control the Great Smoker in many of his actions, are seconding his efforts for a re-nomination. But, thank God! he will never disgrace the Presidential chair again, after his present term of office expires. The infamies of the Radicals are too numerous for them to ever again receive the endorsement of the people. All the evidence that Ben Butler & Co. can perpetrate, combined with the alleged Ku-Klux outrages, and backed by the army and navy cannot save them from their destiny.

**PEACE.**—Peace between France and Germany has at length been consummated, but terrible has been the cost of it to the first mentioned power. Germany has demanded, and is to receive from her, all of Alsace, and that part of Lorraine including Metz and Nancy, on the western boundary, and an indemnity equal to the cost of the war, which is estimated at the enormous sum of 320,000,000 thalers—equal to \$230,400,000 of our money. From this indemnity, however, the Germans deduct all fines and contributions hitherto levied on cities, towns, and departments in France. The Germans formally occupied Paris on the morning of March 2d, and King William reviewed the German forces within the city, a body 30,000 strong, at Longchamps. The vote on the treaty of peace, in the Assembly, stood 145 for and 107 against. The debate upon the acceptance of the proposed terms is reported to have been very bitter. So, at length, an end has been put to a causeless war, brought on by the ambitious designs of an ambitious but incompetent Emperor, and afterward cruelly pushed forward by a flint-hearted old King, equally as ambitious as the other. France will require many years of prudent government to raise herself to the standard among nations she occupied one year ago, and her military and naval system will have to be entirely remodeled before she will be able to regain from Germany her lost territory.

**THE Hon. Henry T. Blow** has resigned his office as Minister to Brazil. It is a first-class place, with a salary of \$12,000 a year in gold and nothing to do. We nominate for it Mr. Abel Rathbone Corbin, the President's brother-in-law. Owing to some circumstances over which he has not been able to exercise as much control as he desired, Mr. Corbin has not had a fair show in the enjoyment of the family patronage. The vacancy in the Brazilian mission affords an opportunity to make it up to him. It is wrong that any inequality should exist in the privileges of the several brothers-in-law. Let justice be done to Mr. Corbin by appointing him Minister to Brazil as soon as the adjournment of the Senate comes to postpone the necessity of submitting the nomination to that body.

**FOR CONGRESS.**—We notice that there are quite a number of aspirants for Congress in this District, and among the number, S. B. Axtell, the present incumbent, W. D. Sawyer, Police Judge of San Francisco, J. D. Hamblen, of San Francisco, A. J. King, of Los Angeles, and J. H. Lawrence of Mariposa. Of the names announced, Hamblen or King would suit us best. The former is a brilliant and rising lawyer, but has the failing of hailing from San Francisco. Judge King is a sound man; is opposed to granting away the public domain to railroad monopolies, and is well acquainted with the requirements of this southern country, and would make an excellent representative.

**VERY STRANGE.**—Senator Williams, who gave Grant a magnificent Oregonian saddle for Ackerman's place in the Cabinet, and then couldn't get the place because Ackerman wouldn't resign, says the *Louisville Courier-Journal*, is one of the commissioners appointed to settle the dispute with England. It is very strange that he should consent to compromise on such an appointment as that. If he were a man of proper self-respect he would have demanded a return of the saddle.

**SIR JAMES ROSS** has secured for his banking house in London the agency for the new \$500,000,000 American loan. Should this house negotiate the whole amount there will be a clear profit to the bank of two millions.

## PARLOR ALBUM.

IN FIVE QUARTO VOLUMES: Price, \$9 00 Per Volume, Or Forty Dollars Per Set Complete.

## DESCRIPTION OF THE WORK:

The *Parlor Album* is doubtless the most extensive and complete ever published, and by those who have examined the several portions of the work, it has been pronounced "The Climax of Beauty." Each volume contains 30 full page Chromo Lithographs, in Oil Colors, 40 full page Steel Engravings, 40 full page engravings on wood and 200 pages of reading matter, descriptive of the illustrations, the whole making each volume about one-half as thick, and same sized pages, of Webster's largest Dictionary. Each volume is complete in itself and will be sold separately, if desired. Sold by Subscription only.

Vol. I. Devoted to Wild American Birds.  
Vol. II. Contains Wild American Animals.  
Vol. III. American Domesticated Birds & Animals.  
Vol. IV. Foreign Birds and Animals.  
Vol. V. Fishes, Reptiles and Insects.

This work will at once commend itself to the cultivated American people, and no library will hereafter be complete without this addition to its treasures; while as a parlor amusement it is unequalled by American publications.

## Agents Wanted.

We will give agents very liberal terms for selling the above described publications, and wish to appoint an agent in every town in the United States and British Provinces. Experienced Book Agents and all other persons of respectability should apply at once. Any Young Man or Young Lady can, by devoting a short time during the day or evening, secure a complete set, free of expense, or, if desired, we will allow large Commission in Cash.

We have prepared a most beautiful SPECIMEN BOOK FOR AGENTS, containing 5 of the Oil Chromo Lithographs, 10 Wood Engravings and 50 pages of descriptive reading, being selections from each volume, together with blank paper, specimens of binding, etc.

Our Specimen Book cost us quite largely, and we do not wish to send it to persons who do not intend to act as agents, but to any one who will make an effort to procure subscribers to the work, we will send the Specimen Book, prepaid on receipt of 40 cents to cover postage. COUNTY OFFICIAL PRESS.

RELIGIOUS NOTICES.

There will be regular preaching once in each month at the following named places, Rev. J. H. Neal pastor:

TOWN AND COUNTY.

STRANGE.—We are reliably informed that, until the storm of two weeks ago, scarcely enough rain had fallen upon the scope of country between Watson's Ferry and Pancho Valley to lay the dust, and that the late storm was only sufficiently heavy to moisten the ground and sprout the grass. This seems hardly credible, but we are constrained to believe its truth.

CHANGE OF TIME.—We learn that from and after the first of next month a change will be made in the running time of the stages from this place to Modesto.

How to MAKE MONEY.—Send to the American Publishing Company, Rutland, Vt., for their beautiful Specimen Book, and make ten dollars the first day you show the book.

FREE ADVERTISING.—From family to family, from city to city, from State to State, the fame of Dr. Walker's Vegetable Vinegar Bitters as a specific for all derangements of the stomach, bowels and liver, is continually extending.

We learn that Messrs. Ferris & Van Tassel, proprietors of the King's River Flouring Mill, have secured the services of an excellent miller, and that they are now making as good flour as can be made anywhere.

From a gentleman residing at the Alabama Settlement we learn that the crops are looking very promising, and will, without doubt, be good if sufficient rain falls from now on to sustain them.

LIST OF LETTERS in Millerton Post Office, March 1st, 1871: W. R. Anderson, T. M. Brady, Miss Emma B. Barker, P. H. Bend-arot, G. H. Esmond, Wm. H. Hall, L. H. Murch, J. J. Mann, Cornelius Roberts, J. P. Ridgeway, J. C. Smith, John Stephenson, Ambrose Walker, James D. Thornton, Joseph Worthley.

A GENTLEMAN from Big Dry Creek in forms as that the crops of that section are looking very promising, and that they would not require any more rain for at least two weeks. The farmers of that locality are all happy in the anticipations of good crops.

FANDANGO.—A grand fandango took place at the Indian camp across the river from town on last Sunday. The dusky sons and daughters of the forest appeared to be having a high old time.

RAIN IN THE MOUNTAINS.—On Saturday night quite a heavy fall of rain occurred on the mountains east and north of us, but at this point only a very light sprinkle fell.

THE weather, during the greater part of last week, was quite warm and pleasant, and in consequence thawed the snow in the mountains, causing the river to raise considerably.

LECTURE.—Professor Grow was announced to lecture in the Court House last evening on "Travels in Europe, Asia, and Africa." He goes from this place to Centerville, where he will lecture to-morrow night.

THE Grand Jury is in session, and if we may judge from appearances, are having a considerable business brought before them.

SALUTE.—The German citizens of this town celebrated the confirmation of peace between Germany and France, on last Sunday evening, by a salute.

PREACHING.—The Rev. Mr. Grow, an itinerant preacher and lecturer, held forth in the Court Room on last Sunday evening.

THE Rev. Mr. Trowsdell will preach in the Court House on next Sunday at the usual hours.

WARM.—The weather in this vicinity for the past few days has been as warm and pleasant as the early summer.

ANOTHER refreshing rain visited us on Monday night.

PEACH trees are in blossom in this section.

[COMMUNICATED]

BIG DRY CREEK, Feb. 11, 1870.

At a meeting of the citizens of this neighborhood the following resolutions were unanimously adopted:

Resolved, That we cordially invite all persons, whether stockmen or farmers, living in our neighborhood, to unite with us in carrying out what we consider to be to the interest of all parties.

Resolved, That in driving stock from our farms that we will drive them (if possible) in such a direction as will be most advantageous to our neighbors.

Resolved, That we use ordinary diligence in taking care of our stock, and if our stock shall trespass upon or injure the crops of our neighbors we agree and pledge our sacred honor to pay such damage as may be assessed by two disinterested persons, each party choosing one, and if the arbitrators cannot agree, they shall choose the third, and their decision shall be final.

Resolved, That we recognize the fact that we have no trespass laws to protect us in raising crops; but we most respectfully ask of all stockmen who may have stock running in our neighborhood, that we be allowed, in the absence of all statute laws protecting us to claim and exercise the immutable laws of right and justice between man and man, and in so doing to herd off from our crops, as far as the safety of the same require, all stock, until we shall be able to harvest the same.

Resolved, That these resolutions be published in the Fresno Expositor.

T. P. NELSON, Sec'y.

RESOLUTION OF THANKS.

Be it resolved by Fresno Lodge, No. 188, I. O. O. F.:

1. That our thanks are due and are hereby tendered to our M. W. G. M. of the G. L. of California, for the energy, promptness and efficiency with which he labored in the installation of our Lodge.

2. That in him we recognize the exemplification of the high virtues of our Order, and that it be further resolved by this Lodge:

1. That we are in like manner under fraternal obligations to Bros. Julius Levy, Emory Wing, S. G. George, A. J. Atwell, E. F. Warner, J. B. O'Connor, G. F. Pennebaker, J. D. Hyde, and G. Boukowsky of Four Creeks Lodge, No. 94, Visalia, and to Brother R. H. Ward, of Willow Lodge, Snelling, of this jurisdiction, for their brotherly conduct in making a long and tedious journey in order to assist in the installation of our Lodge.

2. That we extend to them the right hand of fellowship, and express our hope that the courtesy and kindness so happily inaugurated between our infant Lodge and its generous sisters may continue, and that this Lodge may soon have an opportunity to reciprocate.

3. That to them and our worthy G. M. we feel ourselves indebted for our installation; and that without this evidence of their zeal and devotion to our Order we would not now be permitted the happiness of enjoying its many benefits.

4. That these resolutions be published in the Fresno Expositor, also in the New Age, San Francisco.

HARD TO BEAT—a boiled egg.

The Pain Killer is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medical preparations. Its instantaneous effect in the eradication and extinction of all the various forms of neuralgia, is a human remedy, and the unsolicited verbal testimony of the masses in its favor, have been, and are its own best advertisements.

The ingredients of the Pain Killer being purely vegetable, render it a perfectly safe and efficacious remedy taken internally, as well as for external applications, when used according to the directions. The stain upon linen from its use is readily removed by washing with alcohol.

This medicine, just celebrated for the cure of so many of the ailments of the human family, has now been before the public over thirty years, and has found its way into almost every corner of the world; and wherever it has been used, the same opinion is expressed of its medical properties.

In any attack, where prompt action upon the system is required, the Pain Killer is invaluable. Its most instantaneous effect in relieving pain is truly wonderful; and when used according to directions, is true to the name of PAIN KILLER.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Coughs, Asthma, and Consumption, etc., etc.

Probably never before in the whole history of medicine has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effective remedy that can be given against incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and, indeed, as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of the diseased have been cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the lungs and throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of their use, here, or do more than assure the public that its qualities are fully maintained.

Catawba Grape Juice.

FOR LIVER COMPLAINTS, JAUNDICE, BILIOUS AFFECTIONS, SICK OR NERVOUS HEADACHE, COSTIVENESS, ETC. PURELY VEGETABLE, CONTAINING NO MERCURY, MINERALS OR DELETERIOUS DRUGS.

These Pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea, nor griping pains. They are composed of the finest ingredients. After a few days' use of them, such an invigoration of the entire system takes place as to appear marvellous to the weak and emaciated, whether arising from impudence or disease. H. T. Helmbold's Compound Fluid Extract Grape Pills are not sugar coated, from the fact that sugar-coated pills do not dissolve, but pass through the stomach without dissolving, and thus do not produce the desired effect. THE CATAWBA GRAPE PILLS, of Helmbold, are in taste and odor, do not necessitate their being sugar-coated. Price FIFTY CENTS PER BOX.

IRRITATION OF THE NOSE OF THE BLADDER AND INFLAMMATION OF THE KIDNEYS AND BLADDER, BLOOD IN URINE, DISEASES OF THE PROSTATE GLAND, STONE IN THE BLADDER, CALCULI, GRAVEL, BRICKDUST, DEPOSIT, MUCUS OR MILKY DISCHARGES, PAIN IN THE BACK, HOT HANDS, FLUSHING OF THE BODY, DRYNESS OF THE SKIN, ERUPTION OF THE THROAT, AND ALL OTHER AFFECTIONS OF THE URINARY SYSTEM, AND ALL SCALY ERUPTIONS OF THE SKIN AND BEAUTIFYING THE COMPLEXION. PRICE, \$1.50 PER BOTTLE.

Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty, for the decline or change of life, after confinement or labor pains; bed-wetting in children.

Helmbold's Extract Buchu is diuretic and blood-purifying, and cures all diseases arising from impurities in the blood, and excesses and imprudences in life, impurities of the blood, etc., and purifying the blood, it cures all diseases arising from impurities in the blood, and excesses and imprudences in life, impurities of the blood, etc.

LADIES.—In many affections peculiar to ladies the Extract Buchu is unequalled by any other remedy—as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of customary Evacuations, Cleared or Scanty Menstruation, Uterus, Leucorrhoea or Whites, Sterility, and for All Complaints incident to the sex, whether arising from induration or habits of dissipation. It is prescribed, extensively, by the most eminent physicians and midwives for enfeebled and delicate constitutions, of both sexes and all ages (attended with any of the above diseases or symptoms).

H. T. HELMBOLD'S EXTRACT BUCHU CURES DISEASES ARISING FROM IMPURITIES, HABITS OF DISSIPATION, ETC. in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a permanent and healthy strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling all poisons, out of the system.

Thousands who have been the victims of incompetent physicians, and of the many who have been cured in a short time, have found they have been deceived, and that the poison has, by use of powerful astringents, been dried up in the system to break out in more aggravated form, and perhaps after marriage.

USE HELMBOLD'S EXTRACT BUCHU for all affections and diseases of the urinary organs, arising from impurities in the blood, and excesses and imprudences in life, impurities of the blood, etc., and purifying the blood, it cures all diseases arising from impurities in the blood, and excesses and imprudences in life, impurities of the blood, etc.

HENRY T. HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a FACE WASH, and will be found the only specific remedy in every species of Cutaneous Affection. It rapidly eradicates Pimples, Spots, Scrofula, Dryness, Irritations of the Cutaneous Membrane, etc., dispels redness and impurities of the face, restores the complexion to its natural beauty, and cures all diseases of the face, arising from impurities in the blood, and excesses and imprudences in life, impurities of the blood, etc.

It is an excellent lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the Extracts Buchu, Sarsaparilla and Catawba Grape Pills, in such diseases as recommended, cannot be surpassed. PRICE, ONE DOLLAR PER BOTTLE.

Put in elegant directions accompany the medicine. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upwards of 100,000 unqualified certificates, and numerous letters, many of which are from the highest sources, including eminent Physicians, Clergymen, Statesmen, etc. The proprietor has never received a single complaint of any kind, and he does not do this from the reason that his articles rank as standard preparations, and do not have to be propped up by certificates.

PATENT

ARION PIANO!

A FEW REASONS WHY

—THE—

ARION PIANO!

IS SUPERIOR TO ALL OTHERS.

The ARION PIANO-FORTE has Greater Power than any other Piano-Forte manufactured

It Will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and therefore more durable than any instrument constructed in the usual modern style.

The construction of the Arion, the manner of stringing, the form and peculiar form and arrangement of the Iron Frame,

Supersedes all Others.

The use of a bar, (which is a part of the Iron Frame) on a line with the heavy steel stringing, gives

Great Strength

Where most needed, and in this respect all other Pianos fail.

The construction of the WREST PLANK, into which the Tuning Pins are inserted, is such that it is impossible for the pins to become loosened, or the WREST PLANK itself to split, as is too often the case in other Piano-Fortes.

The Extraordinary Evenness

Throughout the entire scale, the excellent Singing Quality, the

Length and Purity of Vibration,

All go to prove what we claim, viz: that the

ARION PIANO-FORTE

Is the Best Instrument manufactured,

THE PATENT

ARION PIANOS

Are used exclusively in the American

Conservatories of Music of New

York City.

The most severe test a Piano can receive is constant use in a Conservatory.

Head the Following:

It affords me much pleasure to give you, in these few lines, a very sincere testimonial for the Piano-Fortes of your manufacture. We have now used the "Patent Arion Pianos" in our Conservatories for a year, and have had the opportunity of testing their durability during that time. The Pianos have been played upon almost constantly from morning till night, and a Piano must indeed be a good one when it will bear such constant use without showing signs of defection. As for remaining in tune, it outstrips any Piano known to me.

Their peculiar sweetness of tone in the treble, (as compared to other Pianos with the ordinary metal agraffe arrangement), is so striking that I have heard it remarked, while taking their lessons, that although they had at home what they supposed to be one of the best makes of Pianos, still the treble was very truly compared with the ARION.

What makes them still more desirable is their uniform volume of tone, which enables an artist to perform a composition in its true character. In total, I can conscientiously endorse all that is claimed by the ARION PIANO-FORTE COMPANY for their superb instruments, as I consider them superior to any other make.

Congratulating you upon the great success you have obtained in the manufacture of so perfect an instrument, I remain yours truly,

## KIND HEARTED GEORGE.

A poor old man sat down to eat  
A little bit of bread and meat  
As George Wright came up the street,  
His clothes were torn, his head was bare,  
The wind it blew his long white hair,  
As cold and friendless he sat there.

"Poor man," said George with a sigh,  
"I feel that I could almost cry."  
You look so thin, I fear you'll die."

The old man raised his head to hear  
Kind words that thrilled his heart and ear,  
But down his cheek there rolled a tear.

"Alas!" he said, "if I could see  
The gentle boy that speaks to me  
How very happy I should be."

"For dark to me the world has been,  
And I have never, never seen  
A tree, or flower, or meadow green."

"How often have I wished to view  
My mother's face; the skies of blue;  
And now I long to look on you."

"Poor man," said George Wright, "don't cry,  
But pray to God that when you die,  
Your soul may go to Him on high."

"There you will see, without a tear,  
Far better things than we do here,  
And, oh! perhaps, your mother dear."

The winning words of this dear child  
Such comfort gave, the old man smiled  
And felt his heavy grief beguiled.

## HOUSE, FARM AND GARDEN.

**IRON AROUND PEACH TREES.**—At a recent meeting of the American Institute Farmer's Club, Mr. Wagner, who lives on Long Island, about fifty miles east of New York, exhibited some prunings from his orchard to illustrate the effects of putting iron around trees in the orchards, full of dead limbs, with yellow leaves and the branches oozing thick gum. He gave the earth a good top dressing of iron, breaking up old ploughs and stoves, and scattering the fragments. The effect has been marvelous. The trees have renewed their youth and now look strong and thrifty. The bark is tight and the leaves all green, and the borer has disappeared. He thinks the slag of iron furnaces ground up and spread on orchards would prove a very valuable fertilizer for fruit trees of all kinds.

The frequent damage to trees by high winds and cattle will render the following directions for tree-surgery interesting to farmers: Let the broken limb be put into its place, and the torn and bruised bark be covered with clay and bound up, as in grafting. A correspondent of the *Cincinnati Gazette* reports the recovery of a cherry tree, broken by a horse. The writer supported the tree by tying it to a stake, and covered the broken place with grafting wax. The success was complete.

**TO PRESERVE LEATHER.**—Take half a pint of linseed oil, and half a pint of neat-foot oil and boil them together. Have the boots dry, and free from dirt, rub them with this mixture before the fire, until completely saturated, set them by for two or three days after oiling the first time, and after using wash them clean from dirt, and oil when dry, or upon the feet, before going out. The soles of dress boots may be made impervious to wet or snow by the same mixture.

**EGGS FOR BURNS.**—It is constantly coming to the notice of the observant that common articles of food are curatives of various ailments of men—and best too. The white of an egg applied to a burn, not deep, gives immediate relief, because it keeps out the air. Dipping the burnt part in warm or cold water, or covering it with flour, are all efficacious, but the burn may be so situated that it cannot be kept in water; then use the white of an egg.

**WASH FOR CLEANSING SILVER AND BRITANNIA WARE.**—Take one pound of common hard soap, three table spoonfuls of sp. of turpentine and half a tumbler of water. Allow the soap to dissolve; then boil ten minutes, and before it cools add six table spoonfuls of sp. of hartshorn. Make a suds of this preparation and wash the silver with it.

**BLACKING FOR HARNESS.**—A good blacking is made of 4 ounces of hog's lard, 16 ounces neatfoot oil, 4 ounces yellow wax, 20 ounces ivory black, 16 ounces sugar, and 16 of water. Heat the whole to boiling, and then roll it into balls about two inches in diameter.

**GRAPHIC.**—A Mississippi paper, which keeps a reporter expressly for description, has the following picture of a candidate for office of the party whom it opposes:

His head is about as large as a coon's, and recedes so rapidly from the root of his nose that if a stream of water were poured perpendicularly upon his brow, more of it would run off the back of his head than off his face. His organs of intellect, if he ever had any, have vacated and taken up their abode in the posterior part of his brain which makes the cerebellum appear like a market basket hung to the back of his head. His teeth seem to be all gone, and his gums close up to keep his chin out of danger. His nose looks like the butt-end of a blood beet, and his eyes look like auger holes in a muskmelon rind.

**SPURGEON** says nobody is more like an honest man than a thorough rogue.

WHAT is that which ties two persons, but only touches one? A wedding ring.

**ACTIVITY.**—The doctors will tell you, and your own observation will confirm it, that the healthiest men in the world are the men most actively employed. The child's hymn has it that Satan finds mischief for idle hands; and the ghastly goddess of ill-health and disease finds mischief for sluggish blood and indolent muscles. Even the mountain tarn, for all the cool, fresh wind that continually crisps its dark surface into tiny waves, grows dull, and stagnates in its inactivity; and that Christian life, which is only a pool, shut into its own broodings, must of necessity stagnate also. How different the dull surface of the standing water, with its matting of heavy weeds, from the clear musical tide of the streamlet that rushes by field and wood with a song and a blessing wherever it goes. Activity is essential to healthy life, and especially to healthy Christian life. The Christian life is like the bicycle that hurries along our roads—while it is in motion you are borne onward safe and upright, but when it pauses you fall helpless to the earth.

**SAMANA.**—Our correspondent from the San Domingo Commission, says the New York *Sun*, deals a rude blow at the last superstition connected with Gen. Grant's attempt to get a foothold in that island. He shows that Samana is worthless as a naval coaling station; that it is a bad harbor, and cannot be made a good one; that it now costs \$73 per ton to coal ships here above the price which it costs at St. Thomas, where there is a first rate haven. For Samana President Grant has bargained to pay \$150,000 a year; while at St. Thomas all necessary conveniences for coaling our men-of-war can be rented for \$5,000 a year.

The evidence collected by our correspondent respecting the climate of San Domingo is important. It is a deadly climate. White men cannot live there in health. As a *sanitarium*, for which purpose the Rev. Dr. Vinton wants to have the island, it will not do at all.

**INGRATITUDE, BASE INGRATITUDE.**—The following sad truths are clipped from an exchange:

"It is strange how closely people read the papers. We never say anything that anybody don't like but what we soon hear of it, and everybody tells us about it. But if once in a while we happen to say a good thing, we never hear that—nobody seems to notice that. We may pay some man a hundred compliments, and give him a dozen puffs, and he takes it as a tribute to his greatness and never thinks anything about it—never thinks it does him any good. But if we happen to say something that this very man don't like, or something that he imagines reflects on him or his character, see how quickly he flies up and gets mad about it. All our evil is duly charged to us, but we never, apparently, get any credit for what good we do."

**DISGUSTED GERMANS.**—General Logan's election to the Senate from Illinois, says the Dayton, Ohio, *Ledger*, does not please the German wing of the Radical party in that State. They wanted Lieutenant-Governor Koernor, and feel they were shabbily treated in his not being elected. The Germans are just beginning to find out the Ah-Sins of the organization with which they have acted for the past ten years. Cheated in the choice of Senators, fooled in relation to the sympathy extended to Prussia in her war with France, the Germans are now preparing to take a new departure, and form fresh alliances of a more honest and satisfactory character.

A YOUNG East Indian prince recently died at a hotel in Florence, and, according to the custom of his country, it was necessary to go through the ceremony of burning his body. With some difficulty authority was obtained to perform the unusual rite, and about 500 persons assembled to witness it. The body was wrapt in princely robes, and costly ornaments adorned it. After many strange ceremonies, the ashes were gathered up, inclosed and sealed, to be sent to the native country of the deceased.

A gentleman was chiding his son for staying out late at nights, or rather early next morning, and said: "Why, when I was of your age my father would not allow me to go out after dark." "Then you had a deuce of a father, you had," sneered the young reprobate. Whereupon the father harshly vociferated, "I had a confounded sight better one than you have, you young rascal."

**OF SOME USE.**—There is a woman in Pittsfield, Maine, ninety years old, who sews, nits and reads readily without the aid of spectacles, and milks a cow twice a day. She says "the gals now-a-days ain't worth much."

**JOSH BILLINGS** says: Secrets are kussed poor property enny haov: if you circulate them you lose them, and if you keep them you lose the interest on the investment.

WHAT is the difference between a falling star and a fog? One is *missed* in Heaven, and the other *misses* on earth.

A COUNTRYMAN at the Astor House, the other day, after tasting some olives, wanted to whip the waiter for pouring salt on them plums.

## MISCELLANY.

"A man who'd maliciously set fire to a barn," said good old Elder Poyson, "and burn up a stable full of horses and cows, ought to be kicked to death by a jackass and I'd like to be the one to do it!"

"Mr. Smithers, how can you sleep so? The sun has been up these two hours." "Well, what if it has? He goes to bed at dark, while I am up till after midnight," said Smithers.

A young Louisvillian enjoyed a *lote-a-tete* with his beloved in a doctor's study the other evening, till a skeleton hanging up began to rattle rather ominously. Both thought of ghosts and fled. It was found that a rat was building his nest in the skull, and its movement caused the rattling.

The "golden everlasting chain," described by Homer as reaching from Heaven to earth, and embracing the whole moral world, was no fable. That chain is love.

The first tragedy written in America was by Benjamin Coleman, while a student at Harvard. It was entitled *Gustavus Vasa*, and was enacted at a regular commencement of the college. Coleman afterwards became a noted Boston divine.

The same vanity which leads us to assign our misfortune or conduct to others, prompts us to attribute all our lucky chances to our own talent, prudence and forethought.

An ingenious wife in Des Moines cured her husband of snoring thus: "She had a gutta-percha tube with two cup-shaped ends; one she puts over his nose and mouth, and the other over one of his ears. He consumes his own noise, as a dummy engine does its smoke, and wakes up instantly."

A Boston paper expresses the conviction that "a man who will not do anything himself, nor let any one else do anything by way of public improvement, ought to keep tavern after everybody else is dead."

The total weight of sugar produced in the world is 2,800,000 tons, one-fourth of which is made from beets.

Agnassi Boachi, of Batavia, who sends 1,000 florins to the widows and orphans of the German soldiers, is a negro prince, son of an African grandee, who was a student of the School of Mines, at Freiburg, thirty years ago.

Though France has no greater area of territory than Texas, yet France produces more wheat than the whole United States, the amount from best authorities being for 1869, 335,000,000 bushels, and the United States 240,000,000.

**DIFFERENCE OF OPINION.**—John Andrews, who was digging a well near Poplar Grove, Mo., was buried alive by the earth caving in. As he was forty feet under ground, the neighbors thought it useless to dig him out; but John was not of their opinion, and scratched his way out unaided in seven hours.

**NEW CANDIDATE.**—The Washington *Sunday Herald* nominates Rufus P. Ranney, of Cleveland, Ohio, as the Democratic candidate for President in 1872.

In any business never wade into water where you cannot see bottom.

## HOWE MACHINE COMPANY'S

### WORLD RENOWNED

## SEWING MACHINES!

Paris Exposition Universelle, 1867.

TWO GRAND PRIZES.

GRAND CROSS OF THE LEGION

OF HONOR.

To Elias Howe, Jr., as Inventor,

And Gold Medal for

THE BEST SEWING MACHINE.

Highest Honors ever Conferred

FOR SEWING MACHINES.

THE Machine which bears his name has long been regarded as the standard of excellence, and has become celebrated the world over. The work done by these Machines is unsurpassed—sewing the thinnest muslin or the thickest cloth, with equal facility; and requiring no extra adjusting for uneven thickness or passing over seams; it turns its own hem as it sews, sewing a seam stronger than the fabric itself. To see it hem, fell, tuck, braid, cord, quilt and gather, it seems more like a thing of life than a machine moved by the will of the operator. It is capable of doing any description of sewing that is required in a family; and also for seamstresses and dressmakers it will be found invaluable. They seldom or never give any trouble in operating, and in a word, are the

MOST SATISFACTORY SEWING MACHINES IN USE.

Notwithstanding their great superiority, they are sold at prices as low as any other first-class Machines.

A Medallion likeness of Mr. Howe is imbedded in the plates of every Howe Machine, without which none are genuine. Every purchaser of a Sewing Machine, should inquire for

Elias Howe, Jr.'s Sewing Machines, And if they are not sold in their vicinity, address the General Agency for Illustrated Circulars, etc., and do not purchase until you have thoroughly investigated these renowned machines.

#### THE ELLIPTIC

## SEWING MACHINES!!

### WARRANTED THE BEST.

THE Elliptic Sewing Machines are manufactured and warranted by the Wheeler & Wilson Sewing Machine Company. The late and important improvements enable us to guarantee to every purchaser that the Elliptic Machine will do more work, better work, and a greater variety of work than any other Sewing Machine now in use. The economy of the Elliptic Machine in a family is almost incredible: with one, a good operator can do the work of twelve hands. By it, the making of garments is reduced from a question of hours to one of minutes, as the following table will show:

### FOR SALE.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and countries far beyond, we are necessitated to devote our entire time to said business.

We are the oldest drug firm on the Pacific Coast and the only continuous under the same proprietors since 1849, and have determined to sell our large, prosperous and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of

R. H. McDONALD & CO., Wholesale Druggists, J. O. SPENCER, San Francisco, Cal.

N. B. Until a sale is made we shall continue our importations and keep a large stock of fresh goods constantly on hand, and sell at prices to defy competition.

## The Great Medical Discovery!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands

Bear testimony to their Wonderful

Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK.

Made of Pure Rum, Whiskey, Proof Spirit, and these fine flavors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," etc., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

**DYSPEPSIA OR INDIGESTION.** Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Painful Stomach, Indigestion, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

**FOR SKIN DISEASES.** Eruptions, Tetter, Salt Rheum, Bores, Pimples, Pustules, Bolls, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

**PIN, TAPE and other WORMS,** lurking in the system of so many thousands, are effectually driven out and removed. For full directions, read carefully the circular around each bottle.

J. WALKER, Proprietor, R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

## FLORENCE

SEWING MACHINES

The FLORENCE has now been used on the Pacific Coast seven years, its merits are known, its reputation established.

It is here in daily use in more than six thousand homes, and is effectually speaking for itself, like

"GOLD TRIED IN THE FIRE."

Competition and opposition—fair and unfair—have not consumed or injured it. It stands the practical test upon a greater range of work than any other Family Sewing Machine in use.

It is THERE is ONE WITHIN A THOUSAND MILES OF SAN FRANCISCO NOT WORKING WELL, IF INFORMED OF IT, I WILL FIX IT FOR NOTHING, AND PAY ALL EXPRESS CHARGES.

Shoemakers, Tailors, and Glove-makers are invited to examine our New Florence Manufacturing Machine.

Descriptive Circulars and Samples of Sewing sent free on application.
